RE: Samples

Dear [REDACTED]

Thank you for supplying the thirty-eight samples of tissue culture supernatant of swine vesicular disease virus as received at Pirbright on 7th February 2003. We passaged the material in 1B-RS-2 cells and tested them by ELISA, confirming your findings of the presence of SVDV in all the samples as shown in the attachment.

[REDACTED]

c.c [REDACTED]

**ELISA results for SVD samples supplied by IZSLE, Brescia, Italy,
as received at WRL Pirbright, U.K. on 7th February 2003**
