PAGES: 1 **RE:** Strain differentiation results

- Libya

Dear

Strain differentiation results for Libya type SAT 2 FMD virus isolate received on 11th June 2003.

The following r_1 values were recently obtained by ELISA at the WRL. As expected, there is a better match to the Saudi 2000 strain than to the vaccine strains from South Africa that we were able to test previously.

	r ₁ Values	r ₁ Values by Elisa	
WRL Ref Number	SAU 1/00	SAU 2/00	
LIB 1/2003	0.7	0.6	
LIB 7/2003	0.7	0.85	

Yours sincerely

Head: World Reference Laboratory for FMD
