

Your Reference	Collection details	WRL Reference	Serotyping result by ELISA	Comments
No.1490(1)	5(4) RVEC/2001-02/358	BHU 6/2001	O	Direct antigen ELISA positive. Negative after first passages in BTY and positive in second BTY and IB-RS-2 cells
No.1490(2)		BHU 7/2001	NVD	Negative after two passages in BTY and IB-RS-2 cells
No. 837		BHU 8/2001	NVD	Negative after two passages in BTY and IB-RS-2 cells
No. 107(1)	5(4) RVEC/01-02/548 Minji, Lhuentse	BHU 19/2002	O	Direct antigen ELISA positive. Negative after first passages in BTY and positive in second BTY and IB-RS-2 cells
No. 107(2)	Minji, Lhuentse	BHU 20/2002		
No. 107(3)	Minji, Lhuentse	BHU 21/2002		
No. 80(1)	Chhukha	BHU 22/2002	O	Direct antigen ELISA positive. Negative after first passages in BTY and positive in second BTY and IB-RS-2 cells
No. 80(2)	Chhukha	BHU 23/2002		
No. 80(3)	Chhukha	BHU 24/2002	NVD	Negative after two passages in BTY and IB-RS-2 cells
No. 80(4)	Chhukha	BHU 25/2002	O	Direct antigen ELISA positive. Negative after first passages in BTY and positive in second BTY and IB-RS-2 cells
No. 80(5)	Chhukha	BHU 26/2002	O	Direct antigen ELISA positive. Positive after first passage in BTY and positive in second BTY and IB-RS-2 cells

No. 80(6)	Chhukha	BHU 27/2002	ASIA 1	Positive after second passage in both BTY and IB-RS-2 cells
No. 80(7)	Chhukha	BHU 28/2002	NVD	Negative after two passages in BTY and IB-RS-2 cells
No. 106(1)	Monggar	BHU 29/2002	NVD	Negative after two passages in BTY and IB-RS-2 cells
No. 106(2)	Monggar	BHU 30/2002		
No. 116	Punakha	BHU 31/2002	O	Direct antigen ELISA positive. Negative after first passage in BTY and positive in second BTY and IB-RS-2 cells
No. 117	Punakha	BHU 32/2002	NVD	Negative after two passages in BTY and IB-RS-2 cells
No. 120(1)	Paro	BHU 33/2002	ASIA 1	Direct antigen ELISA positive. Negative after first passage in BTY and positive in second BTY and IB-RS-2 cells
No. 120(2)	Paro	BHU 34/2002	ASIA 1	Direct antigen ELISA positive. Positive after passage in both BTY and IB-RS-2 cells
No. 132 A	Bumthang	BHU 35/2002	O	Positive after second passage in BTY cells
No. 134	P/ling, Chhukha	BHU 36/2002	ASIA 1	Direct antigen ELISA positive. Positive after passage in both BTY and IB-RS-2 cells

\* NVD: No virus detected by ELISA in the original sample material after two passages in both primary calf thyroid (CTY) or continuous pig kidney (IB-RS-2) cell cultures.
